

[BeginText]

Dear Mr. Hilland, Be advised that this text report is being submitted in response to your Request for Additional Information letter dated August 22, 2006. Pursuant to said request and our telephone conferences the committee is submitting amended reports that should clarify and provide the information requested. With regard to your request as it relates to schedule A regarding contributions that may have exceeded the limits, be advised of the following: Contributions from Callahan III will be refunded in the amount of \$400.00; Laura Jean Hawkins will be refunded \$400.00; Nayim Hossain has been corrected to reflect the proper attribution; Tung Chiang Pi had been previously refunded; William White will be refunded \$100.00. With regard to your request as it relates to Schedule B, be advised that the proper attributions will be reflected in the amendments being filed herewith. With regard to the request that the beginning cash balance equal the ending balance on the prior report, be advised that the amendment being filed herewith shall reflect the proper beginning cash. Your request for additional information as it relates to the cycle to date totals for itemized receipts and election cycle to dates that should be itemized, be advised that these items shall be addressed in said amendments being filed herewith. Additionally, as discussed these discrepancies are a result of the campaigns efforts to locate and eliminate duplicate entries. However, upon the elimination of duplicate entries, the prior date as reported became disturbed resulting in the cycle to date totals not totaling correctly. We believe that we have resolved this database issue and the information provided in the amendments is now accurate. Also, the appropriate districts have been inserted to the reported data as relevant to the contributions to house candidates. The contribution to the Conrad Group has also been placed on the appropriate line. The campaign trusts that this information along with the amendments satisfy your inquiry and that our database issue has now been resolved, however, feel free to contact the campaign at 718-639-7010 should you need any further clarifications. Very truly yours, SCOTT G. KAUFMAN, Treasurer.
